About Good Life, Inc.

Oregon based, family-owned and operated

Celebrating 21 years in business in 2023

Provider of solutions for pets, pests & beyond

Winner of Best New Product

Trusted by the state Conservation officials

Providing solutions to everyday challenges **so you can get back to enjoying the good life!**

PETS

Barking dogs, whether they are your own or your neighbors, can be a nuisance. We offer products, designed by our team right here in Southern Oregon, that correct behaviors and offer great training support.

PESTS

Deterring rodents and insects from invading your home or even chewing wires in your farm equipment or RV is important. Doing it without harmful chemicals, poisons or traps is priceless. Our products focus on being proactive!

& BEYOND

Our Bird & Wildlife Propane Cannon is great for deterring birds & other wildlife from wrecking havoc on your orchards, farm and property.

Also, our team has developed many products over the years with new solutions in the works as we speak.

People Good Life

“
| **Best product ever!**

5 stars. Totally worth it! We have a Jack Russell terrier that should've been named "miss barks a lot". Everything makes her bark and she never quits. Within the first hour of wearing this collar set on a low setting, she stopped barking. After using it for a few days straight she now barks almost not at all. Even when she's not wearing the collar. The training effect has been very powerful. Can't recommend it highly enough.

“
| **Well, this was a great purchase!**

We had tried other products to no avail. Our black lab used to bark long annoying howls whenever we let him out in the evening's and that last out before we all went to bed. We have great neighbours who didn't complain but we were sure they must have been annoyed. We put this on our pet at nite and within two days he stopped his nightly serenade. He is so smart he learned the errors of his ways. We had the sensitivity on the collar just a little above the recommended, just audio no vibration. Follow the instructions on the device and you will have no problems. Worth the \$.

“
| **Our customer's love these!**

We install these at both of our shops in So. Oregon. We have customers bring or tow their cars in with rat-chewed wires and hoses, sometimes costing over \$1000-12,000 to repair the damage. After the repair we always recommend the simple installation of Traveler Pest repellents. So far we have never had a repeated issue after installation. I have one on each of my cars too.

DogSilencer® MAX

Designed for extra stubborn barkers, the Dog Silencer MAX will quiet your dog, or **the barking neighbor dog**, using safe ultrasonic sound as a deterrent. This humane, no-shock trainer can stop dog barking up to 300 feet away.

- Humane, no-shock trainer
- Farthest sound distance on the market
- Automatic detection up to 75 feet, Remote activation up to 300 feet away
- Powered via AC Adapter (*included*) OR 6 AA batteries (*not included*) OR Solar Panel (*sold separately*)
- Can be mounted with available bracket (*sold separately*)
- Standard color is black OR choose a faceplate in camouflage, white or tree bark pattern. The white faceplate can be painted to match your home for additional discretion or HOA rules.

UltraSweep™ Traveler

KEEPS RODENTS OUT

FLUCTUATING SOUND
Emits disorienting ultrasonic frequencies, creating an uninhabitable area for rodents.

NO MORE CHEWED WIRES

EASY TO USE & INSTALL

POWERED BY VEHICLE BATTERY

- Connects to the battery terminal using spade connectors.
- No need to remember to replace small batteries or charge separately.
- Manual shutoff for performing vehicle maintenance.

SolarSafeGuard™

The Solar SafeGuard protects your yard and garden from destructive burrowing animals. Charged by the sun, it emits a high-frequency sound above ground and a strong powerful vibration underground. This combination drives out unwanted guests such as gophers, moles, voles, groundhogs, snakes and other burrowing pests.

- Solar Powered - The built-in solar rechargeable battery keeps it charged up to 7 days without sun.
- Large Coverage Area - Protects large areas and works best as a pack; spaced every 100ft.
- Weather Resistant - The IPX4 water resistant rating means sprinklers and light rain are no problem.
- Eco Friendly - No need for poisons that could harm your pets or kill your plants.
- Easy Set-Up - Sets up in 3 easy steps and is ready to go!
- Works Automatically - Once charged and installed it will continuously repel pests without the need to monitor or change batteries.

TheGuardian™

Indoor / Outdoor Pest Repeller

The Guardian combines sonic and ultrasonic sounds, predator calls and a thermal motion sensor to detect unwanted pests and drive them out. Use it indoors or outdoors to repel bats, cats, mice, rats, rodents, skunks, squirrels, raccoons, possums, deer, and other animal pests.

- Select-A-Pest Sound Technology - Target the exact pest you want to repel using the frequency they'll find most irritating.
- Install It Anywhere - With multiple power options, The Guardian can be installed anywhere you need it.
- Weather Resistant - The IPX4 water resistant rating means sprinklers and light rain are no problem.
- Thermal Sensor - Detects movement by detecting changes in heat. Activates with the slightest movement of pest animals or people within 60ft of the unit.
- Predator Sounds - Drives away deer, elk, raccoons, and more using predatory wildcat growls. Frighten and disorient pests using the calls of their natural predator, causing them to seek shelter elsewhere.
